PROFESSIONAL SUMMARY

An UI/UX Designer in Vietnam focused on building and evolving scalable design systems that drive consistency, usability, and product quality. I take a big-picture approach to problem solving, working closely with product designers and engineers to create structured, reusable systems and intuitive user-centric solutions aligned with business goals.

WORK EXPERIENCE

Product Designer

[Halothemes](https://halothemes.com) | Viet Nam | June 2023 - Now | On-site

Gather requirements from stakeholders and analyze insights to align design decisions with business goals.

Lead end-to-end design processes for web and mobile applications, enhancing user experience and engagement.

Conduct market research and product evaluation to identify opportunities for improvement.

Create wireframes and develop interactive prototypes to optimize product functionality and usability.

Improve design consistency by establishing and maintaining a scalable design system (40%).

Collaborate closely with developers to build design tokens and to ensure smooth design implementation.

Consider necessary customizations to make themes adaptable across multiple websites.

UI/UX Design Intern

[TymeX](#) | Viet Nam | Jan 2023 - May 2023 | Hybrid

Gaining hands-on experience in structuring and organizing a design system, particularly across multiple regional versions (Philippines vs. South Africa).

Learning to break down requirements from a Business Analyst (BA) and translate them into UX flows.

Developing skills in manual testing, ensuring that the UI and user flows align with the intended design.

Strengthening communication skills by working with BAs, developers, and designers to align on product requirements.

UI/UX Design Intern

[Dometric Media](#) | Viet Nam | Jan 2023 - May 2023 | Remote

Designed a SaaS landing page for an e-commerce outsourcing

platform, ensuring a user-friendly and visually engaging experience.

Support design team to conduct the sitemap, wireframing, and final design process to create a seamless and intuitive user journey.
